

Poster Program – Morning break

| | | |
|----------------------|--|--|
| 10.40-11.15 | Poster presentations | |
| | 10.40 - 10.45 | Glenn Desplentere (UGent) – <i>The effect of heavy rainfall on splash erosion</i> |
| | 10.45 - 10.50 | Tharaka Ravinda Premathilaka (UGent) – <i>Assessing Land Cover Dynamics and Soil Erosion Risks in the Tensift Watershed, Morocco: A 37-Year Earth Observation-Based Analysis</i> |
| | 10:50 - 10.55 | Pascal Sibomana (ULiège/INES-Ruhengeri) – <i>Effect of land use on soil moisture in a landslide prone tropical environment: field-based monitoring in Rwanda</i> |
| | 10.55 - 11.00 | Hannah De Cock (UGent) – <i>Geomorphological Mapping of the Virunga Volcanoes: A Comparison of Modern Remote Sensing and Aerial Photography</i> |
| | 11.00 - 11.05 | Ellen Timmermans (UGent) – <i>From Digital Elevation Models to 3D geomorphological maps for inclusive education of visually impaired students: exploring the Virunga volcanoes</i> |
| | 11.05 - 11.10 | Yibeltal Mekonnen (KU Leuven/Arba Minch University) – <i>Assessing crop desiccation effect due to gullies: Insights from farmers' perceptions and field monitoring in the southern main Ethiopian Rift</i> |
| 11.10 - 11.15 | Antoine Anneessens (UGent) – <i>Mapping the geomorphology of the Lys River and its relevance to environmental management</i> | |

Poster Program – Lunch break

| | | |
|--------------------|-----------------------------|---|
| 12.40-13.15 | Poster presentations | |
| | 12.40 - 12.45 | Marie Tuerlinckx (UGent) – <i>The impact of soil organic matter on sorption of phosphate in acid sandy soils at different saturation degrees</i> |
| | 12.45 - 12.50 | Ludy Keino (KU Leuven/University of Eldoret) – <i>Layered Double Hydroxides as a Slow-Release Nitrogen Fertilizer</i> |
| | 12.50 - 12.55 | Lu Liu (ULiège/CAAS) – <i>The way and mechanisms of long-term multi-fertilization to improve soil acid buffering capacity</i> |
| | 12.55 - 13.00 | Xiaofang Ji (ULiège) – <i>High-C/N straw inputs lead to higher MAOM than low-C/N straws</i> |
| | 13.00 - 13.05 | Laxmi Moktan (KU Leuven/Czech University of Life Sciences) – <i>Forest management reduces soil carbon sequestration potential in European temperate forests</i> |
| | 13.05 - 13.10 | Keunbae Kim (KU Leuven) – <i>Mid-infrared spectroscopy as a tool to assess oxidative molecular damage to peatlands, and to infer restoration potential and vulnerability to future disturbances</i> |
| | 13.10 - 13.15 | Robin Tersago (KU Leuven) – <i>Greenhouse Gas Emissions from Grassland Mesocosms: Effects of Soil Texture, Biodiversity, and Cutting Frequency</i> |

Poster Program – Afternoon break

| | | |
|----------------------|--|--|
| 15.10-15.40 | Poster presentations | |
| | 15.10 - 15.15 | Joachim López (UCLouvain/KU Leuven) – <i>Tree stand communities are physically and chemically engineering their local environmental conditions</i> |
| | 15.15 - 15.20 | Lin Wang (UGent) – <i>Exploration of soil health change under treated wastewater irrigation</i> |
| | 15.20 - 15.25 | Kamarou-Dine Seydou (UCLouvain) – <i>Effect of 6-year of conservation agriculture practices on soil physical quality in cotton-based rotations in northern Bénin</i> |
| | 15.25 - 15.30 | Axel Cerón-González (VUB/KU Leuven) – <i>Historic Agricultural Terraces in the Mediterranean – A human-soil perspective through archaeological methods</i> |
| | 15.30 - 15.35 | Meihui Li (VUB) – <i>Interpreting the Urban Stratification Processes: An Integrated Soil Micromorphological Study of Late Medieval Dark Earth at Broodstraat (Oudenaarde, Belgium)</i> |
| 15.35 - 15.40 | Robin Beckx (UGent) – <i>Comparing Nematode Exclusion Methods in Soil Samples: Dry Heat vs Freezing-Thawing Cycles vs Gamma Irradiation vs Microwaving</i> | |
